SUMMARY

Creative and self-motivated team player with a passion for programming and a strong work ethic. Committed to personal and team grow and eager to contribute to an organization that values dedication and potential. Seeking opportunities to fully leverage my skills and enthusiasm in a supportive environment.

SKILLS

- NodeJs
- NestJs
- C++
- NextJs
- Java
- SpringBoot
- Cascade Styling
- ML
- Python
- AWS
- ReactJs
- Flutter
- JavaScript
- TypeScript
- React Native
- Fast API

WORK EXPERIENCE

Axceera

Senior Fullstack Developer • 2025 - PRESENT

- *Lead and mentor a cross-functional team of software engineers, data scientists, and UI/UX designers, reviewing code and guiding best practices across the stack.*
- *Architected and implemented FastAPI backend services using SQLAlchemy and Pydantic, including scheduled tasks and background workers.*
- *Designed and developed responsive front-end features from Figma designs, ensuring seamless integration with backend APIs.*
- *Managed CI/CD pipelines with GitHub Actions, including automated Cypress test suites for both frontend and backend.*
- *Deployed and maintained scalable backend APIs on AWS, leveraging services such as Lambda, EC2, and S3 for high availability.*
- *Integrated and optimized advanced ML models, including GPT-style LLMs, for intelligent backend features and real-time data processing.*

Axceera

Fullstack Developer • 2024- 2025

- *Collaborate with team members all around the world*
- *Created & Implemented frontend for figma designs*
- *FastAPI, SQLAlchemy and Pydantic backend service implementation*
- *Python based backend endpoints creation*
- *Used AWS services to host and deploy backend APIs using FastAPI*
- *Used ML models similar to GPT and LLM's to integrate and work with backend services*

Avonet Labs

Fullstack Developer • 2023 - 2024

- *Collaborate with cross-functional teams to identify and prioritize features and requirements*
- *Created CRM and HRM REST APIs*
- *Serverless AWS deployment*
- *More focused and worked with NestJs and NodeJs*
- *Used AWS services to host and deploy backend APIs using NestJs and Python*
- *Used ML models similar to GPT and LLM's to integrate and work with backend services*

Avonet Technologies

Associate Fullstack Developer • 2022 - 2023

- *Strong proficiency in JavaScript, including DOM manipulation and the JavaScript object model*
- *Frontend development with ReactJs*
- *Creating API layers and functions using AWS Lambda*
- *Troubleshooting and debugging APIs using Jest*
- *Troubleshot and resolved software defects and issues*

Posienta Technology

Fullstack Developer- Internship • 2021 - 2022

- *Designing user interactions on web pages with ReactJs.*
- *Creating servers and databases for functionality with SpringBoot and SQL*
- *Designing and developing REST APIs*
- *Contribute to the continuous improvement of software development processes and best practices*

EDUCATION

Bachelor of Science in Information Technology

SLIIT • 2019–2023

CERTIFICATIONS

Python & Machine Learning

DST BIT Mesra • 2021

Practical Web Application Hacking

DST BIT Mesra • 2021

PROJECTS

Rail Online

Technologies Used: TypeScript, NestJs, ReactJs, Redux, AWS

- *Developed an online booking and reservation system for train tickets.*
- *Implemented a refund system.*
- *Integrated Stripe for payment processing.*
- *Deployed backend APIs using AWS services.*

BBB (Better Business Basics)

Technologies Used: TypeScript, NestJs, ReactJs, AWS

- *Built a LinkedIn-like platform for accountants.*
- *Created an admin panel for managing user roles and interview questions.*
- *Implemented quiz assessments.*
- *Deployed backend APIs using AWS services.*

Share App

Technologies Used: TypeScript, NestJs, ReactJs, React Native, NextJs Redux, AWS

- *Developed a CMS for managing users and a super admin role.*
- *Handled serverless AWS deployment.*
- *Managed load handling and gateways with AWS services.*
- *Utilized nx for handling packages and modules.*

Greenhouse AI

Technologies Used: TypeScript, NestJs, ReactJs, AWS

- *Deployed a serverless application to assess greenhouse stats using machine learning.*
- *Integrated ML models similar to GPT and LLM's for backend services.*
- *Hosted and deployed backend APIs using AWS services.*

ISBAR

Technologies Used: TypeScript, NestJs, ReactJs, Tailwind, AWS

- *Developed and deployed a serverless application using NestJs and Python.*
- *Integrated ML models for backend services*

PSHA

- *Led the development of a full-stack platform, managing a cross-functional team of software engineers, data scientists, and UI/UX designers. Implemented FastAPI schedulers, reviewed code, and established CI/CD pipelines with GitHub Actions and Cypress testing for both frontend and backend. Integrated Gemini and GPT-style LLMs to power intelligent backend features and real-time data processing.*

Technologies Used: FastAPI, React, TypeScript, MUI, Docker, PostgreSQL, Gemini, AWS
